

Tulalip Lushootseed Family Activity

Hibulb Family Tree

All About Tulalip Unit

Activity Overview:

This activity will have families visit the Hibulb museum and interact with the Family Tree Exhibit, a virtual representation of our people both past and present. Our goal is to have families go and see another representation of our people within Tulalip's own museum.

In this unit children become familiar with the lands and waters of Tulalip and build their identity within the Tulalip Tribes. It establishes the relationship between people, culture, and rights that were secured by the treaty.
