

Tulalip Lushootseed Family Activity

Record Story

Storytelling Unit

The Storytelling unit covers the traditional art of Storytelling, learning about traditional storytellers and the stories they shared with the people.

Activity Overview:

This activity is to have families come together and share stories. While sharing stories, try and record one for the family. The memories shared and preserved are a great treasure for the family. The goals for this activity are to have families be more involved in storytelling and to give people a chance to make a lasting memory both with family and in digital memories for the future.

slələl' ʔtxʷ - *Recording*

səxʷqʷiʔaac - *Cell Phone*

qʷibicut - *Ready(yourself)*

yəhaw - *start*

Activity Instructions

- Have one or multiple people ready who would like to share stories, make sure to confirm they would like to be recorded.
 - Make sure your camera/phone is charged for the activity. Professionals like to use a mic but smart phones still have great quality.
-
- A good way to do this activity is to have whole families agree together, then they can take turns with their stories.
 - Stories don't need to have any message in them, just something someone wishes to share.
 - You can share the stories you recorded with family who live in other places as a nice way to stay connected.
